

## INDEX TO VOLUME 79

New scientific names are printed in **bold face**

- Abrahamson, Warren G., and Kenneth D. McCrea, Ultraviolet light reflection and absorption patterns in populations of *Rudbeckia* (Compositae) 269-277
- Acer saccharum* 123
- Adenocalymma inundatum* 438
- Allenrolfea mexicana* Lundell (Chenopodiaceae): Its conspecificity with *A. occidentalis* (S. Wats.) Kuntze 130-132
- American Bignoniaceae, Notes on middle 430-444
- Amphitecna* 430-444; ***apiculata*** sp. nov. 435, ***breedlovei*** sp. nov. 432, ***costata*** sp. nov. 431, *latifolia* 438, *montana* 437, *silvicola* 437, *steyermarkii* 436
- Aquatic plants in New England, Observations on some uncommon 445-451
- Arkansas, Morphological intergradation of varieties of *Bidens aristosa* (Compositae) in Northern 203-213
- Arrabidaea costaricensis* 439, ***podopogon*** comb. nov. 439, *pubescens* 440, *verrucosa* 440
- Bahamas — reexamined, *Vernonia* (Compositae) in the 147-159
- Baranov, A. I., Preliminary notes on the structure of stigmatic surfaces in the Begoniaceae 283-287
- Baranov, A. I., *Rudbeckia serotina* f. *tubuliformis* in New England 165
- Bassett, I. J., See McNeill, J. and C. W. Crompton
- Battersia mirabilis*, A crustose sphaecarioid new to northeastern North America 292-299
- Begoniaceae, Preliminary notes on the stigmatic surfaces in the 283-287
- Bernhardt, Peter, The pollination ecology of a population of *Erythronium americanum* Ker. (Liliaceae) 278-282
- Bidens aristosa* (Compositae) in Northern Arkansas, Morphological intergradation of varieties of 203-213
- Bidens aristosa* 203-213; differences between varieties of 204; various characteristics of population I 207 & 210; various characteristics of population II 208 & 211
- Bignoniaceae, Notes on Middle American 430-444
- Biosystematics of *Psilostrophe* DC. (Compositae) I. Chromosome variability 169-189
- Brown, Roy Curtiss, Biosystematics of *Psilostrophe* DC. (Compositae) I. Chromosome variability 169-189
- Burk, C. John and Scott D. Lauer-mann, *Catalpa speciosa* naturalized in western Massachusetts 305-307
- Canne, Judith M., A revision of the genus *Galinsoga* (Compositae: Heliantheae) 319-389
- Catalpa speciosa* naturalized in western Massachusetts 305-307
- Ceratophyllum tetragonolobum* 440
- Champlin, Richard L., Red form of *Lindera benzoin* 166
- Chromosome studies in North and Central American species of *Pectis* L. (Compositae: Tageteae) 79-94
- Chromosome studies of *Parnassia* and *Lepuropetalon* (Saxifragaceae) from the eastern United States. A new base number for *Parnassia* 573-578
- Chromosome variability. Biosystematics of *Psilostrophe* DC. (Compositae) I. 169-189
- Chrysogonum* (Compositae, Heliantheae). Revision of 190-202

- Chrysogonum virginianum* 192, var. *australe* 197, var. *virginianum* 193
- Chuang, Tsan lang and Lincoln Constance, Cytogeography of *Phacelia ranunculacea* (Hydrophyllaceae) 115-122
- Coldenia 476; classification of 472
- Coleman, James R. A summary of experimental hybridization in *Verbesina* (Compositae) 17-31
- Coleochaetaceae in Maine, A new station for 300-304
- Coleochaete pulvinata* var. *minor* var. nov. 302
- Colobogyne : A taxonomic synonym of *Spilanthes* (Compositae : Heliantheae) 128, 129
- Colt, L. C. Jr., A new station for Coleochaetaceae in Maine 300-304
- Compositae 139-146; genera of the Compositae possessing tetramerous corollas 140-142
- Constance, Lincoln, See Chuang, Tsan lang
- Crompton, C. W., See McNeill, J. and I. J. Bassett
- Cydista aequinoctialis* var. *hirtella* 440
- Cytogeography of *Phacelia ranunculacea* (Hydrophyllaceae) 115-122
- Cytogeography of *Sedum lanceolatum* and its relatives 95-114
- Disc florets in the Compositae, Observations on tetramerous 139-146
- Distictis buccinatoria* 440
- Dorn, Robert D., Willows of the Rocky Mountain states 390-429
- Eastman, L. M., Notable plants of Rattlesnake Mountain, Porter, Maine 316
- Essex County, Massachusetts, Revisions to a flora of 308-315
- Erythronium americanum* Ker. (Liliaceae), The pollination ecology of a population of 278-282
- Flora of Gardiners Island 214-239
- Flora of Essex County, Massachusetts, Revisions to a 308-315
- Flora of the Great Dismal Swamp, A contribution towards a vascular 240-268
- Galinsoga* (Compositae : Heliantheae), A revision of the genus 319-389
- Galinsoga* 319-389; *boliviensis* sp. nov. 365, *caligensis* sp. nov. 353, chromosome counts 330 & 331, *durangensis* comb. nov. 342, *elata* sp. 340, *filiformis* 345, *formosa* nom. nov. 338, *glandulosa* sp. nov. 380, *longipes* sp. nov. 348, *mandonii* 370, *mollis* 344, *parviflora* 373, *quadriradiata* 355, *subdiscoidea* 368, *triradiata* sp. nov. 351
- Gardiners Island, Flora of 214-239; checklist of plants 227-239
- Gardner, Robert C., Observations on tetramerous disc florets in the Compositae 139-146
- Gastony, Gerald J., and Douglas E. Soltis, Chromosome studies of *Parnassia* and *Lepuropetalon* (Saxifragaceae) from the eastern United States, A new base number for *Parnassia* 573-578
- Gentry, Alwyn H., Notes on Middle American Bignoniaceae 430-444
- Great Dismal Swamp, A contribution towards a vascular flora of the 240-268
- Grindelia* (Compositae-Astereae), A new combination in 583-585
- Grindelia gymnospermoides* comb. nov. 584
- Grocki, Walter, See Wilce, R. T.
- Heckard, Lawrence and Peter Rubtsoff, Additional notes on *Veronica anagallis-aquatica*  $\times$  *catenata* (Scrophulariaceae) 579-582
- Hehre, Edward J. Jr., The flora of Gardiners Island 214-239
- Hellquist, C. Barre, Observations on some uncommon aquatic plants in

- New England 445-451
- Hermann, Frederick J. and William A. Weber, *Juncus triglumis* in North America 160-162
- Hybridization in *Verbesina* (Compositae), A summary of experimental 17-31
- Hybridization between *Phyllodoce empetrifloris* and *P. glanduliflora* (Ericaceae), An analysis of populations formed by 1-16
- Jacaranda copaia* ssp. *spectabilis* comb. et stat. nov.** 441
- Jansen, Robert and Bruce Parfitt, *Allenrolfea mexicana* Lundell (Chenopodiaceae): Its conspecificity with *A. occidentalis* (S. Wats.) Kuntze 130-132
- Jones, Samuel B. Jr., See Keeley, Sterling C.
- Juncus triglumis* in North America 160-162
- Keeley, Sterling C. and Samuel B. Jones, Jr., *Vernonia* (Compositae) in the Bahamas — reexamined 147-159
- Keil, David J., Chromosome studies in North and Central American species of *Pectis* L. (Compositae: Tageteae) 79-94
- Keil, David J., A revision of *Pectis* section *Pectothrix* (Compositae : Tageteae) 32-78
- Lauermann, Scott D., See Burk, C. John
- Levy, Gerald F., See Musselman, L. J. and Daniel L. Nickrent
- Lindera benzoin*, Red form of 166
- Lindera benzoin* f. *rubra* forma nova** 166
- Lipscomb, Barney L. and Edwin B. Smith, Morphological intergradation of varieties of *Bidens aristosa* (Compositae) in northern Arkansas 203-213
- Lundia puberula* 442
- McCrea, Kenneth D., See Abrahamson, Warren G.
- McNeill, J., I. J. Bassett and C. W. Crompton, *Suaeda calceoliformis*, the correct name for *Suaeda depressa* auct. 133-138
- Maine, Notable plants of Rattlesnake Mountain, Porter, 316
- Maine, A new station for *Coleochaetaceae* in 300-304
- Mansoa verrucifera* 443
- Massachusetts, *Catalpa speciosa* naturalized in western 305-307
- Massachusetts, Revisions to a flora of Essex County 308-315; [corrigenda 308-311]
- Musselman, Lytton J., Daniel L. Nickrent and Gerald F. Levy, A contribution towards a vascular flora of the Great Dismal Swamp 240-268
- Najas guadalupensis* 450, *N. minor* 451
- New England, Observations on some uncommon aquatic plants in 445-451
- New England, Rediscovery of *Psilocaryia nitens* in 163, 164
- New England, *Rudbeckia serotina* f. *tubuliformis* in 165
- Nickrent, Daniel L., See Musselman, L. J. and Gerald F. Levy
- North America, *Battersia mirabilis*, A crustose sphacelarioid new to north-eastern 292-299
- North America, *Juncus triglumis* in 160-162
- North and Central American species of *Pectis* L. (Compositae : Tageteae), Chromosome studies in 79-94
- Notice of publication 167, 317, 465
- Pachyptera hymenaea* 443, *P. standleyi* 443
- Parfitt, Bruce, See Jansen, Robert
- Parnassia* and *Lepuropetalon* (Saxifragaceae) from the eastern United

- States. A new base number for Parnassia. Chromosome studies of 573-578
- Pectis L. (Compositae : Tageteae). Chromosome studies in North and Central American species of 79-94
- Pectis section Pectothrix (Compositae : Tageteae). A revision of 32-78
- Pectis angustifolia 53, var. angustifolia 55, var. *fastigiata* comb. nov. 60, var. *tenella* comb. nov. 58; filipes 71, var. filipes 74, var. subnuda 74; incisifolia 63; morphological groups 33; new chromosome counts 82-87, previous chromosome counts 80; papposa 50, var. grandis 53, var. papposa 51; *peruviana* sp. nov. 48; pringlei 61; purpurea 64, var. purpurea 65, var. lancifolia 68, var. sonora 67; rusbyi 46; sinaloensis 69; stenophylla 39, var. *biaristata* comb. nov. 45, var. *gentryi* var. nov. 42, var. *puberula* comb. nov. 44, var. *rosei* comb. nov. 44, var. stenophylla 42; uniaristata var. *jangadensis* comb. nov. 90; vollmeri 75
- Phacelia ranunculacea (Hydrophyllaceae). Cytogeography of 115-122
- Phyllodoce empetriflora and P. glanduliflora (Ericaceae). An analysis of populations formed by hybridization between 1-16
- Pithecoctenium crugerum 443
- Pollination ecology of a population of Erythronium americanum Ker. (Liliaceae) 278-282
- Poole, James P., Revisions to a flora of Essex County, Massachusetts 308-315
- Porter, Duncan M., Typification of Tiquilia darwinii and Tiquilia fusca (Boraginaceae) 288-291
- Potamogeton filiformis 445, hillii 446, lateralis 450,  $\times$  longiligulatis 448, vaginatus 446
- Pseudocatalpa caudiculata 443
- Psilocarya nitens in New England, Rediscovery of 163, 164
- Psilostrophe DC. (Compositae) I. Chromosome variability. Biosystematics of 169-189
- Psilostrophe 169-189; chromosome configurations in experimental hybrids of 182; chromosome variability 187; meiotic configurations in natural populations of 174-177
- Quercus  $\times$  introgressa, A new hybrid Oak 453-464
- Quercus  $\times$  *introgressa* hybrida nova 453
- Richardson, Alfred T., Monograph of the genus Tiquilia (Coldenia, sensu lato), Boraginaceae : Ehretioideae 467-572
- Rocky Mountain States, Willows of the 390-429
- Rubtsoff, Peter, See Heckard, Lawrence
- Rudbeckia (Compositae), Ultraviolet light reflection and absorption patterns in populations of 269-277
- Rudbeckia serotina f. tubuliformis in New England 165
- Ruffin, John, A new combination in Grindelia (Compositae-Astereae) 583-585
- Saccharum or Saccarophorum? 123-127
- Salix 390-429; alba 405; amygdaloides 403; arctica 412; arizonica 424; babylonica 406; barclayi 420; barrattiana 427; bebbiana 413; bonplandiana 402; boothii 423; brachycarpa 411; candida 418; cascadiensis 413; commutata 421; discolor 415; drummondiana 417; eastwoodiae 422; exigua 407; farriac 420; fragilis 406; geigeriana 414; glauca 411; gooddingii 402; irrorata 418; lasiandra 405, var. caudata 405; lasiolepis 419; lemmonii 415; ligulifolia 426; lucida 404; lutea 425; melanopsis 408; monochroma 426; monticola 424;

- orestera 422; pedicellaris 410; pentandra 403; petiolaris 414; planifolia 416; pseudomonticola 419; reticulata ssp. nivalis 409; rotundifolia 410; scouleriana 416; serissima 404; sitchensis 427; taxifolia 406; tweedyi 428; vestita 408; wolfii 421
- Sedum lanceolatum* and its relatives. Cytogeography of 95-114
- Shaw, Elizabeth A., *Saccharum* or *Saccharophorum*? 123-127
- Smith, Edwin B., See Lipscomb, Barney L.
- Soltis, Douglas E., See Gastony, Gerald J.
- Sorrie, Bruce A., Rediscovery of *Psilocarya nitens* in New England 163, 164
- Spilanthes* (Compositae : Heliantheae), *Colobogyne*: A taxonomic synonym of 128, 129
- Spilanthes langbianensis* comb. nov. 128
- Stigmatic surfaces in the Begoniaceae, Preliminary notes on the 283-287
- Stizophyllum riparium* 443
- Stuessy, Tod F., *Colobogyne*: A taxonomic synonym of *Spilanthes* (Compositae: Heliantheae) 128, 129
- Stuessy, Tod F., Revision of *Chrysogonum* (Compositae : Heliantheae) 190-202
- Suaeda calceoliformis*, The correct name for *Suaeda depressa* auct. 133-138
- Tabebuia donnell-smithii* 443, *T. impetiginosa* 443
- Tetramerous disc florets in the Compositae, Observations on 139-146
- Thomson, Paul M., *Quercus* × *introgressa*, A new hybrid Oak 453-464
- Tiquilia atacamensis* 551; *canescens* 506, var. *canescens* 508, var. *pulchella* 509; classification of 474; *conspicua* 559; chromosome number, species examined for 481-486; *cuspidata* 537; *darwinii* 566; *dichotoma* 542; *elongata* 554; *ferreyrae* 549; *galapagoa* comb. nov. 563; *gossypina* 525; *grandiflora* 547; *greggii* 510; *hispidissima* 517; *hunteri* 556; *laticor* 515; *litoralis* 557; *mexicana* 524; *nesiotica* 565; *nuttallii* 532; *palmeri* 538; *paronychioides* 561; *plicata* 534; *purpusii* 529; *simulans* 545; *tacnensis* 553; *tuberculata* 519; *turneri* 521
- Tiquilia*, (Coldenia, sensu lato), Boraginaceae : Ehretioideae, Monograph of the genus 467-572
- Tiquilia darwinii* and *Tiquilia fusca* (Boraginaceae), Typification of 288-291
- Uhl, Charles H., Cytogeography of *Sedum lanceolatum* and its relatives 95-114
- Ultraviolet light reflection and absorption patterns in populations of *Rudbeckia* (Compositae) 269-277
- United States, A new base number for *Parnassia*, Chromosome studies of *Parnassia* and *Lepuropetalon* (Saxifragaceae) from the eastern 573-578
- Verbesina* (Compositae), A summary of experimental hybridization in 17-31
- Verbesina alternifolia* × *helianthoides* 23; *aristata* × *glabrata* 18; *heterophylla* × *occidentalis* 18; *lindheimeri* × *occidentalis* 20; *lindheimeri* × *rothrockii* 19; *virginica* × *heterophylla* 19; *walteri* × *alternifolia* 24; *walteri* × *occidentalis* 23
- Vernonia* (Compositae) in the Bahamas — reexamined 147-159
- Vernonia arbuscula* 156; *blodgettii* 157; characteristics to distinguish some species 148; *cinerea* 158; fertility in species and hybrids 155; leaf shapes 152
- Veronica anagallis-aquatica* × *catenata* (Scrophulariaceae), Additional notes on 579-582

- Watson, Thomas J. Jr., An analysis of populations formed by hybridization between *Phyllodoce empetriiformis* and *P. glanduliflora* (Ericaceae) 1-16
- Weber, William A., See Hermann, Frederick J.
- Wilce, R. T., and Walter Grocki, A crustose sphaecelarioid new to northeastern North America: *Battersia mirabilis* 292-299
- Willows of the Rocky Mountain States 390-429
